METALLICS MULTI-TONAL HAIR COLOUR

HOW TO ACHIEVE PERFECT RESULTS

# A NEW OPPORTUNITY IN THE WORLD OF HAIR COLOUR

The multifunctional colour system that meets your needs in **permanent or tone on tone** services.

## **COOLS**

and tone bases for a **natural finish**.

## **UPDATES**

the shade for **something new**.

## **CREATES A METALLIC**

shade for a **trendy look**.

An advanced new formula that features:

### **LOW AMMONIA CONTENT:**

provides greater respect for the hair fibre.

### **HIGHLY EFFECTIVE PIGMENTS:**

creates a rich, multidimensional colour result.

### **LIQUID CRYSTAL TECHNOLOGY:**

deposits varying amounts of pigment where the hair needs it most to achieve multi-tonal depth on all hair types.

These qualities guarantee a multichromatic shade and an iridescent multi-tonal finish.

# ON CHESTNUT OR BLONDE SHADES

/ Apply on base shades Level **4-10** to achieve:

**NATURAL RESULTS** (Levels 4-6)

**COOL SHADES** (Levels 6-8)

**METALLIC SHADES** (Levels 8-10).

/ Provides up to **3 levels** of lift depending on the technique used to cover all your needs.  
(see information on services)

/ Covers up to **30%** of grey hair.

\* Increase this to 100% cover by mixing with a natural Cromatone SCP shade in a ratio of 1:1.

# THE RANGE:

# 8 SUBLIME SHADES

Create subtle cool tones or an intense metallic finish depending on the base level. CROMATONE METALLICS is the perfect shade range that adapts to suit all of your clients.

	6.12M	6.21M	7.22M	7.52M	8.32M	9.12M	9.22M	10.02M

# SERVICES

TAKE THE PERSONALISATION OF YOUR SERVICES WITH **CROMATONE METALLICS** TO ANOTHER DIMENSION

## COLOUR:

permanent colour service with up to 3 levels of lift and multichromatic cover of grey hair.

## REFRESH:

tone on tone colour service that refreshes faded shades and corrects undesired tones to deliver a multi-tonal finish.

## ILLUMINATE:

colour and lightening service with the PLATIBLANC ADVANCED system and a toning effect that creates areas of light that reveal the full potential of an iridescent metallic finish.

## TONING:

toning service that offers maximum neutralisation of undertones and creates a metallic finish on pre-lightened hair.

## COLOUR MELT:

blending "makeup" for grey and greying hair. Provides subtle colour correction, shine and depth to hair with 80-100% grey.

 SERVICE	 FEATURES	 EMULSION	 PROCESSING TIME
COLOUR (ratio 1:1)	Lifts 1 level	<b>3,75%</b> (12,5 Vol.)	<b>20/30</b> min
	Lifts 2 levels	<b>6%</b> (20 Vol.)	<b>30/40</b> min
	Lifts 3 levels	<b>9%</b> (30 Vol.)	<b>30/40</b> min

A patch test must ALWAYS be carried out 48 hours before the service on any clients who have never coloured their hair, or have not done so for at least 6 months. Consult the product leaflet for more information on this allergy test.

# COLOUR SERVICE

Permanent colour service with up to 3 levels of lift and multichromatic cover of grey hair.

Shade applied 6.21M

## APPLICATION

**1.**

Mix the desired METALLICS shade + OXIBEL emulsion (**1:1**) depending on the desired level of lift.

**2.**

Apply the colour on roots.

**3.**

Processing time: 20-40 minutes on roots depending on the desired level of lift, and 5-20 minutes on lengths and ends depending on the level of fade and intensity desired.

20-40 min

Roots

5-20 min

Lengths and ends

**4.**

Mix the desired METALLICS shade + OXIBEL emulsion (**1:1**) + SILAPLEX 1 BOND REINFORCER and pull the colour mix through to ends.

**5.**

Wash hair with TREAT NATURTECH COLOUR PROTECT SHAMPOO and finish with SILAPLEX STEP 2 BOND RESTORER. Leave to process for 10 minutes and rinse thoroughly with water.

## COLOUR MAINTENANCE

### WASH HAIR:

with TREAT NATURTECH COLOUR PROTECT SHAMPOO

### SEAL:

with TREAT NATURTECH COLOUR PROTECT CONDITIONER

### TREAT (Once a week):

with COLOUR RESURRECTION

Select the shade that is closest to your clients' colour.

COLOUR

# REFRESH

## SERVICE

BEFORE

AFTER

Tone on tone colour service that refreshes faded shades and corrects undesired tones to deliver a multi-tonal finish.

Shade applied 7.22M

## APPLICATION

**1.**

Mix the desired METALLICS shade + OXIBEL emulsion (**1:1**) depending on the base level and intensity desired + SILAPLEX 1 BOND REINFORCER.

**2.**

For subtle changes, wash hair and apply the colour mix on damp hair. To refresh or darken the shade, apply on dry hair.

**3.**

Apply the colour on the necessary areas.

**4.**

Processing time: 10-20 minutes, depending on level of fade and intensity desired.

**5.**

Wash hair with TREAT NATURTECH COLOUR PROTECT SHAMPOO and finish with SILAPLEX STEP 2 BOND RESTORER. Leave on for 10 minutes and rinse thoroughly with water.

## COLOUR MAINTENANCE

### WASH HAIR:

with TREAT NATURTECH COLOUR PROTECT SHAMPOO

### SEAL:

with TREAT NATURTECH COLOUR PROTECT CONDITIONER

### TREAT (Once a week):

with COLOUR RESURRECTION

Select the shade that is closest to your clients' colour.

REFRESH

# ILLUMINATE

## SERVICE

Colour and lightening service with the PLATIBLANC ADVANCED system and a toning effect that creates areas of light that reveal the full potential of an iridescent metallic finish.

Shade applied  
6.21M on roots

Shade applied  
8.32M on lengths and ends

## APPLICATION

1.

Mix the desired METALLICS tone + OXIBEL emulsion (1:1) depending on the desired intensity and lift.

2.

Apply the colour on roots.

3.

Proceed to lighten the hair with PLATIBLANC ADVANCED + SILAPLEX 1 BOND REINFORCER.

4.

After the required processing time depending on the desired lift (maximum 40-50 minutes), wash hair with TREAT NATURTECH SENSI DERMO SHAMPOO. Remove excess water with a towel.

5.

For a subtle result, apply on damp hair. For intense results, dry the hair fully before applying the shade.

6.

Apply a mix of the desired METALLICS shade + OXIBEL emulsion (1:1) + SILAPLEX 1 BOND REINFORCER.

7.

Processing time: 5-20 minutes depending on level of fade and intensity desired.

8.

Wash hair with TREAT NATURTECH COLOUR PROTECT SHAMPOO and finish with SILAPLEX STEP 2 BOND RESTORER. Leave to process for 10 minutes and rinse thoroughly with warm water.

## COLOUR MAINTENANCE

### WASH HAIR:

with TREAT NATURTECH COLOUR PROTECT SHAMPOO

### SEAL:

with TREAT NATURTECH COLOUR PROTECT CONDITIONER

### TREAT (Once a week):

with COLOUR RESURRECTION

Select the shade that is closest to your clients' colour.

ILLUMINATE

# TONING

## SERVICE

BEFORE

AFTER

Toning service that offers maximum neutralisation of undertones and creates a metallic finish on pre-lightened hair.

Shade applied 9.22M

## APPLICATION

**1.**

Mix the desired METALLICS shade + OXIBEL emulsion (**1:1**) depending on the base level and intensity desired + SILAPLEX 1 BOND REINFORCER.

**2.**

To neutralise any undertones, wash the hair first and apply the mix on damp hair. To create a cool, metallic tone, apply the mix on dry hair.

**3.**

Apply the colour on the necessary areas.

**4.**

Processing time: 5-20 minutes, depending on level of fade and intensity desired.

**5.**

Wash hair with TREAT NATURTECH COLOUR PROTECT SHAMPOO and finish with SILAPLEX STEP 2 BOND RESTORER. Leave for 10 minutes and rinse thoroughly with water.

## COLOUR MAINTENANCE

### WASH HAIR:

with TREAT NATURTECH COLOUR PROTECT SHAMPOO

### SEAL:

with TREAT NATURTECH COLOUR PROTECT CONDITIONER

### TREAT (Once a week):

with COLOUR RESURRECTION

Select the shade that is closest to your clients' colour.

# COLOUR MELT SERVICE

BEFORE

AFTER

Blending “makeup” for grey and greying hair.  
Provides subtle colour correction, shine and depth  
to hair with 80-100% grey.

Shade applied  
10.02M at the  
front

Shade applied  
8.32M on the rest

## APPLICATION

1.

Mix 1 part of the recommended METALLICS shade (6.21M / 8.32M / 10.02M) + 2 parts of OXIBEL emulsion (1:2).

2.

Wash hair with TREAT NATURTECH SENSI SHAMPOO and remove excess moisture with a towel to prevent a root effect.

3.

Apply the colour mix with the recommended colour brush, distributing the product through the hair. Comb through to remove any excess.

4.

Processing time: 5-10 minutes, depending on desired intensity.

5.

Wash hair with TREAT NATURTECH COLOUR PROTECT SHAMPOO and seal with TREAT NATURTECH COLOUR PROTECT CONDITIONER. Rinse thoroughly.

## COLOUR MAINTENANCE

### WASH HAIR:

with TREAT NATURTECH COLOUR PROTECT SHAMPOO

### SEAL:

with TREAT NATURTECH COLOUR PROTECT CONDITIONER

### TREAT (Once a week):

with COLOUR RESURRECTION

Select the shade that is closest to your clients' colour.
